Founders Message

Thank you for choosing AgentLink to assist with your property sale.

We're pleased to provide you with your agent report, which offers valuable insights to help you select the right real estate agent for your needs.

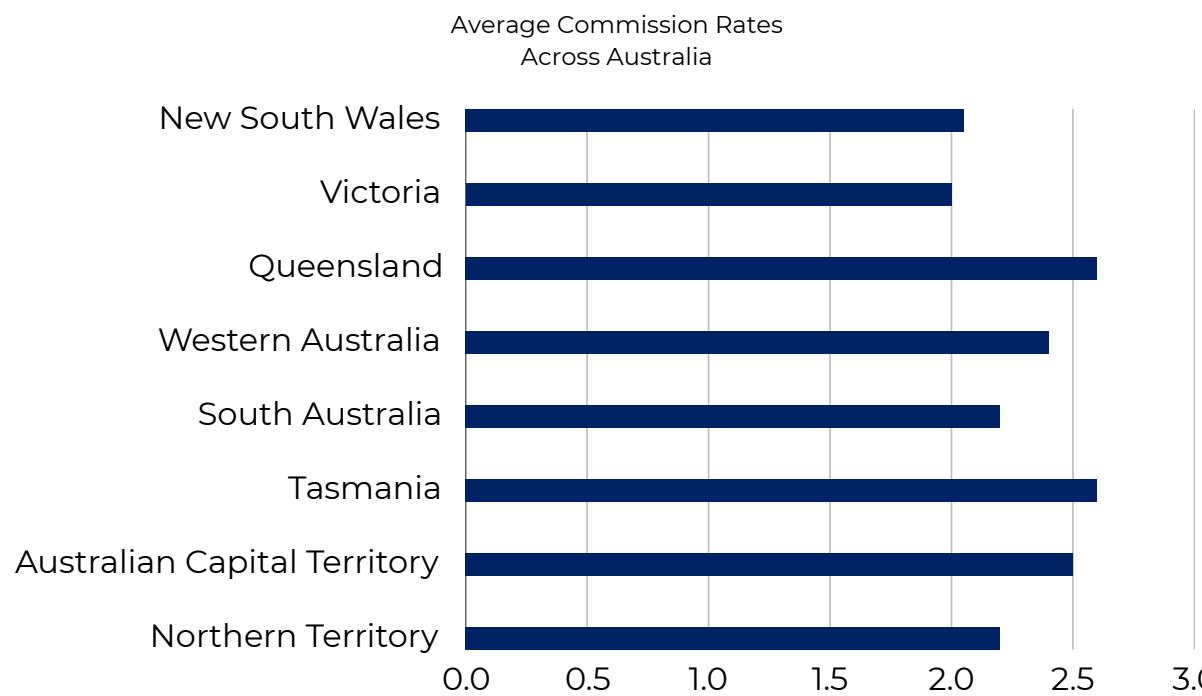

I founded AgentLink because I was tired of seeing property owners making uninformed decisions regarding their sale. AgentLinks goal is to bring clarity to the property process by ensuring sellers like you have access to independent advice and expert support.

General Commission Rate Information

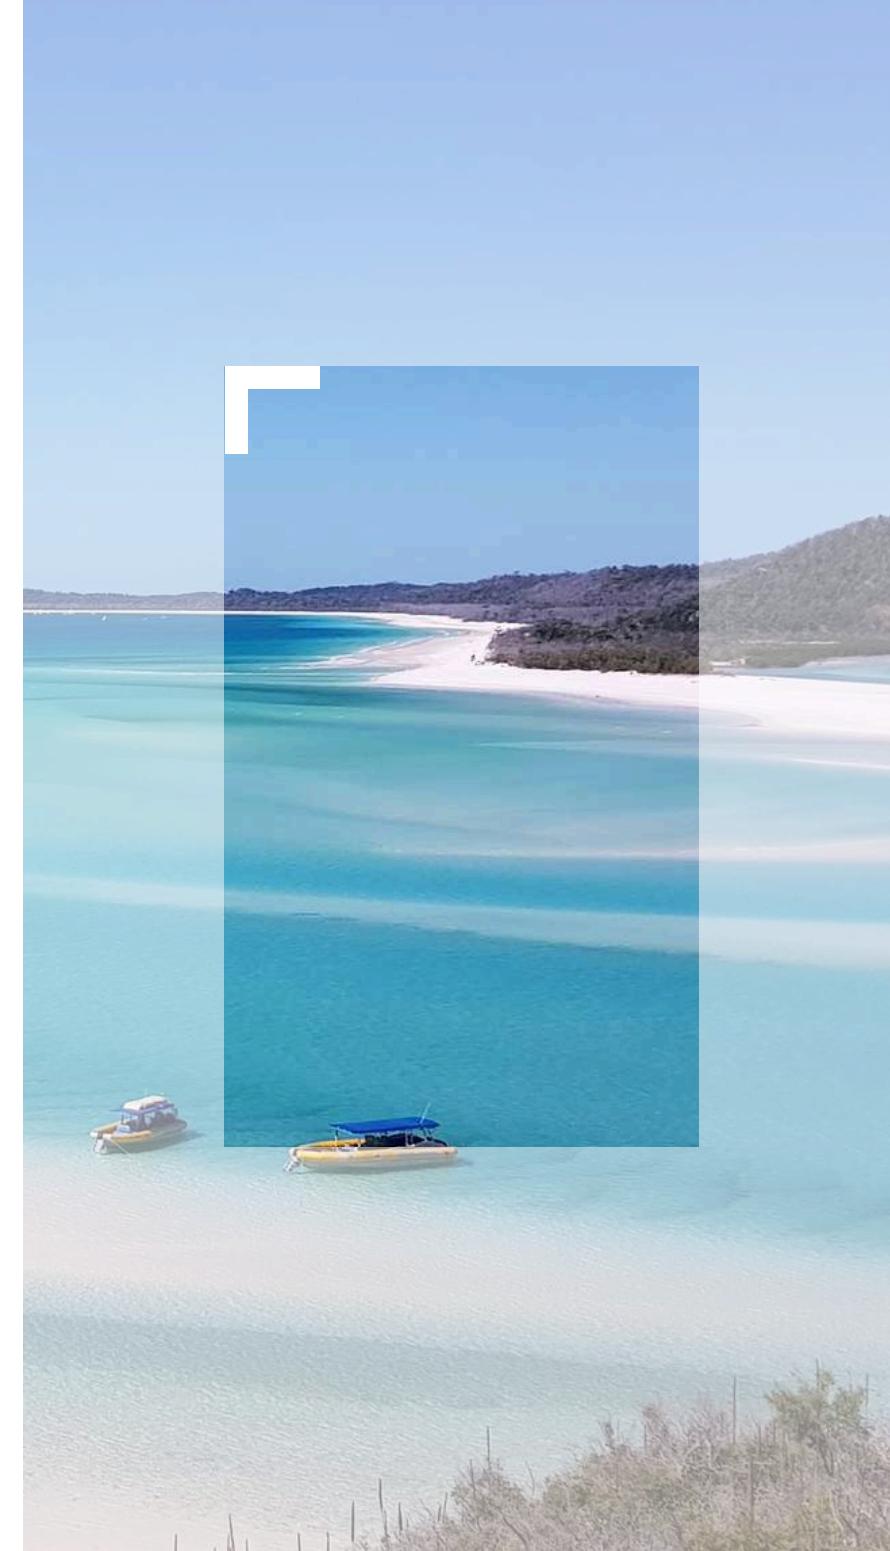

AgentLink Advantage

AgentLink empowers homeowners to better negotiate commission rates with agents, given our unique relationship with agents we are able to secure information regarding commission rates which assist you in ensuring you are not paying too much.

We provide a similar service for leasing. Feel free to enquire regarding management rates for your property.

AgentLink Promise

Is this an unbiased service?

AgentLink provides information for up to 5 local agents in each suburb. This information is passed on without alteration and reflects real sales data and results. Only top agents within your suburb are eligible to be on AgentLinks agent report. You may see a featured agent; the featured agent in each suburb is selected using strict criteria and they may pay AgentLink a small retainer for this privilege.

Why is this service free?

When an agency successfully sells a property from AgentLink's directory the agency may pay AgentLink a referral fee. This allows us to provide our services to homeowners entirely free of charge and has allowed us to pre-negotiate a commission discount on your behalf.

“Highly recommend!”

“We had the option of several agents to choose from, but AgentLink helped us narrow it down and pick the right one. They interviewed all the agents on our behalf and gave us honest, clear recommendations. The best part was that everything was done remotely, which saved so much time and effort. Their support throughout the sale was also fantastic. Highly recommend!”
